

TROOP 1806 SUGGESTED CAMPING PACK LIST

Personal Gear - This is a suggested checklist of personal gear for girls and adults

Backpack, duffel bag, carryall type bag for all this stuff:

Clothing appropriate for the weather. Bring a light sweater or sweatshirt and long pants for evening

Pajamas - sleepwear should NOT be the same as what was worn earlier in the day

Hat (full brimmed is best - if cap, be sure to put sunscreen on ears and neck)

Swimsuit (if swimming or boating activities available - one-piece swimsuit suggested to be better than two-piece)

Two types of shoes (1) closed-toe shoes for walking around camp and activities, (2) old tennis shoes or crocs for any boating activities

Bath and hand towels

Basic personal hygiene supplies (shampoo, soap, comb, toothbrush, toothpaste, and so on)

Uniform is recommended (especially for flag opening) but optional. If bringing uniform, consider wearing it only for ceremonies, and storing it carefully when not wearing

Partial roll of TP in plastic ziplock bag (for just in case - keep in your daypack!)

Daypack

Water Bottle (hopefully place to carry in daypack - keep it filled and drink regularly to stay hydrated)

Sunscreen

Sunglasses

Personal First Aid Kit (at least some bandaids and neosporin)

Rain Gear (even if no rain is predicted, always a good idea to pack a poncho or rain suit, just in case)

Insect repellent (towelettes/wipes better than lotion, lotion better than spray)

Sleeping bag, or sheets and blankets (depending on weather)

Sleeping pad (not needed if you're in a fixed bunk with a mattress - otherwise, air mattress, closed cell foam, thermarest, etc.)

Small Pillow

Mess Kit (Metal or Heavy-Duty Plastic - Plate, Bowl, Cup, Utensils) and Dunk Bag. NOTE: Girls should already have these. Adults can put this together fairly easily from kitchen supplies, and then buy a mesh/laundry-type bag for the dunk bag. Girls and adults will all use these mess kits for meals, and cleanup after meals.

Flashlight, Headlamp and/or Electric Lantern - no open-flames of any kind in tents. Consider bringing extra/fresh batteries

Camp Chair or Sit-Upon

Pocket Knife (if know how to use, and if approved by patrol leaders)

Fishing gear, if fishing available on campout

Patrol/Troop Gear - This is a suggested checklist of campsite gear for the overall group

Food based on planned menu, menu should be printed and posted

Kaper Chart

Camp Stoves (Propane or butane only)

Lantern (Propane or electric only - no propane lanterns in tents, but OK if under shelter and away from nylon covering). NOTE: Shelters in some GS camps have electric lights, so lanterns probably not necessary.

Extra Propane Cylinders for Stoves and Lanterns

Safety Matches or Safety Lighter

Potable Water Containers/Carriers (need for a handwashing station, as well as for drinking water.

Running water will be available at the shelters)

Cook Pots, Pan and Utensils, suitable for the planned menu

Paper Towels

Insulated Gloves or Pickup Tools for Hot Pots

Cords for Clotheslines, Hanging Dunk Bags

Cleaning Supplies (Plastic Washtubs, with Soap, Bleach, Scrubbies, etc.)

Handwashing Supplies

Patrol Flags

Trash Bags

Extra TP - most GS camps provide TP, but always a good idea to have some in reserve
